AGENDA

Steven Swan - Communications, Master Builder NSW

- Introduction to eContracts – advantages and features over hardcopy (paper based)
- How to use the MBA's new econtract system

Robert Collings - Head Solicitor, Master Builders NSW

- Types of Contracts: Differentiating and selecting the most suitable contract for residential projects.
- Terms and Conditions Explained: Insurance requirements and other significant conditions.
- Navigating Challenges: Strategies to address unexpected changes, handle disputes, and implement resolutions.
- Payment Processes: From claims to understanding the intricacies of deposits and ensuring payment security.
- Essential Record Keeping: The necessary records for all businesses in the building and construction industry.
- Contractual Pitfalls: Gaining insights to avoid common challenges, including cost plus concerns, prime cost and provisional sums compared to variations.
